

To Whom It May Concern

The AISPP costs of \$2 for residents and \$15 for nonresidents was a unfair fee placed upon JUST the anglers, while recreational boats were not required to help pay for a program that also benefits their use of all Montana waters. In my opinion a \$5 to \$25 fee annually for all watercraft would be a much better system, like those used in other states (CO has the best system).I own a motorized watercraft and understand if I want to continue to recreate in the state of Montana, paying for these programs (AIS) is not a burden to myself.

Thank you for your attention to this letter.
